and Research

From: Vice Chancellor Frederick P. Schaffer

Re: New Intellectual Property Policy

In Fall 2000 Chancellor Goldstein convened an Intellectual Property Committee, consisting of CUNY faculty and staff and representatives from the RF, to review CUNY's policies regarding copyright and patents. The current policies were issued in the early 1970s and revised by the RF in the mid-1980s. Since that time, technology and the focus of university scholarship and research has changed a great deal. Consequently, the Committee was given the mandate to review the current policies and consider whether they effectively address the various needs of the CUNY community.

It was the Committee's goal to bring the policies into the 21st century without needlessly changing aspects of the current policies that continue to work. The Committee also sought to support CUNY's obligation to disseminate its scholarship for the public good, while encouraging and rewarding faculty, staff and student research, ingenuity and entrepreneurship.

In May 2001, the Committee released a draft new policy to the CUNY community for comment. Meetings to discuss the policy were held with the Executive Committee of University Faculty Senate and the Professional Staff Congress in Fall 2001 and Winter 2002, and a public forum took place in February 2002. A revised draft policy addressing many of the concerns raised at

these meetings was released to the CUNY community in May of this year. A second public forum was held on October 2, 2002.

A summary of the new policy, and the full text of the policy are attached for your consideration.

Enc.

**SUMMARY OF REVISED
CUNY/RF INTELLECTUAL PROPERTY POLICY**

A Single Policy is Established for the CUNY Community.

The Revised Policy combines the current copyright and patent policies into one policy that covers all forms of intellectual property. The Revised Policy applies to CUNY faculty, staff, and graduate students engaged in faculty-directed research, who create intellectual property (1) while making substantial use of CUNY resources, (2) as a direct result of CUNY duties, (3) pursuant to the terms of an agreement to which CUNY is a party, or (4) in the course of or related to activities on grants or contracts administered by the RF. The Revised Policy unifies the royalty structure for all CUNY-owned IP.

The current copyright policy is limited to persons who produce copyrightable material in the course of work whose business administration is the responsibility of the RF. The patent policy applies more broadly to persons who produce inventions in the course of activities supported in any way by CUNY through funds, facilities or equipment. Intellectual Property other than copyrights and inventions is not covered by the current policies.

The General Rule Regarding Ownership Remains the Same.

Under both the Revised Policy and the current policies, the general rule is that copyrightable works are owned by their creator(s) and patentable works are owned by CUNY. The Revised Policy also provides that patentable works like computer programs and computer code that may also be copyrightable will be owned by CUNY only to the extent that they are patentable.

There are Important Exceptions and Clarifications of the General Rule.

Special rules apply to sponsored work, work created within the scope of employment, work commissioned by CUNY, and CUNY media.

Courses designed to be delivered over the internet, by computer or through similar technologies may involve both copyrightable works and other intellectual property. Under the Revised Policy, CUNY claims no ownership rights in either the intellectual content of such courses, or the tools and technologies used to present them, unless the work is the result of sponsored research or is commissioned by CUNY, in which case the terms of a negotiated agreement will apply.

Royalties to Creators are Increased.

The Revised Policy grants Creators 100% of royalties on copyrightable works owned by the Creator pursuant to the General Rule. Under the current copyright policy, the Creator's royalties are based on the extent of CUNY support, and may be as low as 25% of net royalties.

The Revised Policy grants Creators 50% of net proceeds from CUNY-owned IP, an increase from 35% in the current patent policy thereby making the Creator and CUNY equal partners in the royalty stream from CUNY-owned IP. In addition, 25% of CUNY's share is distributed to the Creator's College, with 50% of such amount going to the Creator's academic or research units(s) for the support of research and scholarly activity.

Creator's Rights in the Event of CUNY Inaction are Strengthened.

The Revised Policy provides that if CUNY fails to act within 90 days of a disclosure, the Creator may request that the IP be released. CUNY must respond to a release request within 30 days. CUNY may condition a release on the assignment from the Creator of a percentage of net royalty income, not to exceed 10%. CUNY will also retain a license to use the IP for internal educational and research purposes.

Policy Provisions are Waivable.

Members of the University have the right to negotiate agreements for terms different from those set forth in the General Rule, or to request waivers of other policy terms.

IP Management is Streamlined.

The duty to manage CUNY-owned IP is lodged with Chancellor or his/her designee. The Chancellor may appoint the RF as designee for performance of functions assigned to CUNY in general or the Chancellor in particular. CUNY assigns its ownership rights in Inventions resulting from Sponsored Research to the RF, who may then file patent applications.

Unified Dispute Procedure is Created.

Under the current policies, disputes are to be settled by the Copyright Committee or the Patent Committee, as the case may be. Decisions of the Patent Committee may be appealed to the Board of Directors of the RF. There is no appeal process for decisions of the Copyright Committee decisions. Under the Revised Policy, disputes are reviewed by a panel consisting of a representative of the Creator and designees of the Executive Vice Chancellor for Academic Affairs, the Executive Director of the Research Foundation, the Chair of the Faculty Advisory Council of the RF, and the Provost of the Creator's College. The panel's decision may be appealed to the Chancellor.

Equity Ownership and Conflict of Interest are Addressed.

To address and support faculty entrepreneurship, the Revised Policy includes language regarding CUNY and faculty ownership of equity and conflict of interest issues.

THE CITY UNIVERSITY OF NEW YORK

INTELLECTUAL PROPERTY POLICY

I. Purpose

- To serve the public good by promoting and facilitating the dissemination of the products of research, authorship and invention by the University¹ community
- To recognize and encourage research, authorship and invention by the University community by providing for the sharing of tangible rewards resulting from the commercialization of such research, authorship and invention
- To define the ownership, distribution and commercialization rights associated with the products of research, authorship and invention by the University community, and to define the policies and procedures for managing such products

II. Applicability

This policy shall apply to all forms of Intellectual Property created or developed, in whole or in part, by Members of the University (1) making Substantial Use of University Resources, (2) as a direct result of University duties, (3) pursuant to the terms of an agreement to which the University is a party, or (4) in the course of or related to activities on grants or contracts administered by the Research Foundation.

III. Ownership Of Intellectual Property

A. General Rule:

1. The Creator shall own all rights in Copyrightable Works.
2. The University shall own all rights in other Intellectual Property.

B. Exceptions and Clarifications to the General Rule:

1. Sponsored Research. Ownership of Intellectual Property resulting from Sponsored Research shall be determined pursuant to the terms of the agreement between the University or the Research Foundation, as the case may be, and the Sponsor, or as otherwise required by applicable law. If ownership is not defined in the agreement, Intellectual Property shall be owned pursuant to the General Rule.

2. Commissioned Work. The University shall normally own Intellectual

¹This and other capitalized terms are defined in Section XIII.

Property resulting from Commissioned Work. In all cases of Commissioned Work, ownership and royalty rights shall be specified in a written agreement, a copy of which shall be submitted to the OGC for review and approval as to form. Any such agreement which provides for ownership by other than the University shall also provide the University with a royalty-free, non-exclusive license to use the Intellectual Property for internal educational and research purposes.

3. Copyrightable Work Created Within the Scope of Employment.

Copyrightable Work, other than Scholarly or Pedagogical Work, prepared by an employee of the University or the Research Foundation within the scope of his or her employment shall be owned by the University or the Research Foundation, as the case may be. Examples of Copyrightable Work subject to this provision include, without limitation, personnel manuals, written policies, administrative handbooks, public relations materials, archival audio and video recordings of College events, and official College and University web pages.

4. Electronically Published Course Materials.

Courses designed to be delivered over the internet, by computer or through similar technologies may involve both Copyrightable Works and other Intellectual Property. Consistent with its intent to recognize the Creator as the owner of Scholarly or Pedagogical works, the University claims no ownership rights in either the intellectual content of such courses, or the tools and technologies used to present them, unless the work was the result of Sponsored Research or is Commissioned Work, in which case B.1 or B.2 of this Part shall apply.

5. Negotiated Agreements.

A Member of the University who wishes to conduct work making Substantial Use of University Resources under terms different from those set forth in the General Rule above may enter into an agreement for the use of such resources with the College(s) where such work shall be conducted. Such agreement shall be negotiated by the President(s) of the College(s) with the advice of the OGC, and must be approved by the Chancellor. The agreement shall specify who shall own any Intellectual Property resulting from such work, any arrangement as to equity sharing, royalty-sharing, and/or the amount of the fee, if any, to be paid for use of the University Resources.

6. University Media.

Copyrightable Work prepared for publication in official University and College media, such as television and radio stations, newspapers, magazines and journals, shall be owned pursuant to the individual policies of such media or as defined in their contracts with Creators. In the absence of a policy or contract, copyright shall be owned by the University.

C. Creator's Non-Commercial Use.

Where the University owns the Intellectual Property under this policy, the Creator is permitted to continue to use the work for his or her own non-commercial purposes. Any distribution by the Creator to academic colleagues outside the University beyond the limits of "fair use", as defined in Section 107 of the Copyright Act of 1976, shall be permitted pursuant to written agreement from the University through the Chancellor or Designated Individual at each College.

IV. Administration of this Policy

Authority and responsibility for this policy shall reside with the Chancellor. The Chancellor may seek the advice and assistance of the Intellectual Property Committee (as described in Section V.E.). The responsibility for administration of the policy at the college level is delegated to the Designated Individual at each College.

V. Management of Intellectual Property

A. Disclosure of Intellectual Property.

1. Disclosure Required. Creators shall disclose to the Chancellor any Intellectual Property that is owned by the University under this policy, including improvements and reductions to practice and Intellectual Property created under Sponsored Research.

2. Timing. Disclosure shall be made prior to submission of the Intellectual Property for publication, other release to the public domain or attempt to license, distribute or manufacture the Intellectual Property commercially.

3. Multiple creators. Where more than one Member of the University has participated in the creation of Intellectual Property, all participants must sign the disclosure notice.

B. Determination of Ownership Rights.

1. Determination of Rights. The Chancellor shall determine whether the University has reason to exercise ownership rights over Intellectual Property disclosed to it, and, if the University has such rights, whether it desires to obtain protection for or pursue licensing of such Intellectual Property.

2. Notice to Creator. The Chancellor shall promptly notify the Creator of his/her determination to disclaim or assert ownership of the Intellectual Property.

3. Time Limit. The University shall make every reasonable effort to act expeditiously under the circumstances in arriving at all decisions and taking all actions under Sections B, C and D of this Part.²

C. Legal Protection and Commercialization.

1. Forms of Protection. Intellectual Property determined by the Chancellor to

²For more specific time limits following the Creator's request for an assignment of the University's rights in Intellectual Property, see Section V.D.

be owned by the University may be patented, registered with the U.S. Copyright Office or otherwise legally protected by the University.

2. Assignments. The Creator of such Intellectual Property shall cooperate with the University in the application for legal protection of the Intellectual Property, including executing appropriate assignments, declarations and/or other documents required to set forth effectively the ownership and rights to the Intellectual Property pursuant to this policy. In the event of any dispute between the Creator and the University, the Creator's obligations under this provision shall be without prejudice to the Creator's rights under Part IX.

3. Costs of Protection. All costs involved in obtaining and maintaining legal protection of University-owned Intellectual Property shall be borne by the University, unless the University disclaims, releases or waives its ownership rights or unless a licensee accepted by the Creator agrees to bear such costs pursuant to the terms of a written license agreement.

4. Commercialization. The Creator has primary responsibility for identifying parties having an interest in using, developing or commercializing University-owned Intellectual Property.

5. Progress Reports. The Chancellor shall regularly inform the Creator of the progress of the University's protection efforts and licensing of University-owned Intellectual Property disclosed by such Creator.

D. Creator's Additional Rights.

1. Request for Release. The Creator may request assignment to the Creator of some or all of the University's rights in Intellectual Property (a "Release") under the following circumstances:

a. if the University notifies Creator that it elects not to protect or commercialize University-owned Intellectual Property, or that it has decided to abandon protection or commercialization; or

b. if, within 90 calendar days of disclosure to the Chancellor, the Creator has not received notice from the Chancellor that the University: (i) disclaims ownership of the Intellectual Property or (ii) has taken steps to protect or commercialize University-owned Intellectual Property.

Such request shall disclose the date of any publication of the Intellectual Property.

2. Release or Proof of Continuing Effort. Within 30 calendar days of the date of a request from a Creator for a Release, the University shall either (a) disclaim ownership of the Intellectual Property, (b) execute a Release, or (c) document that the University has

exercised and continues to exercise due diligence in attempting to protect or commercialize the Intellectual Property.

3. Form of Release. The University may condition the granting of a Release on the assignment to the University of a share, not to exceed 10 %, of net proceeds. For purposes of this section, “net proceeds” shall mean earnings to the Creator from the Intellectual Property over and beyond reasonable costs incurred in the process of legal protection and management. The University shall retain a royalty-free, non-exclusive license to use any Intellectual Property released to the Creator under this Section D for internal educational and research purposes. Pursuant to 37 C.F.R. Part 401, as amended (regulations implementing the Bayh-Dole Act), the U.S. government shall also retain certain rights.

4. University Waiver. The University shall be deemed to have waived its rights in the Intellectual Property if: (a) it fails to meet the deadline specified in Section D.2, or a mutually agreeable extended time period; or (b) in the case of a patentable Invention, it fails to file a patent application within 90 calendar days of the date of publication as set forth in the Creator’s request for a Release under Section D.1.

5. Creator’s Right to Protect. If the University disclaims, releases or waives ownership of Intellectual Property, the Creator shall have the right to obtain protection for or pursue licensing of such Intellectual Property in his or her own name and at his or her own cost.

E. Intellectual Property Committee.

1. Purpose. An Intellectual Property Committee shall be established to advise the Chancellor on disclosures made to him or her, to make recommendations for updates and changes to this policy, and to consider such other matters as may be described in this policy or may be referred to the Committee by the Chancellor.

2. Composition. The Intellectual Property Committee shall consist of at least nine members. The Executive Vice Chancellor for Academic Affairs (who shall serve as chair of the Committee) and the Executive Director of the Research Foundation or designee, shall be members. The Chair of the University Faculty Senate, or a person designated by the Chair, shall select the remaining members of the Committee, taking into account the recommendations of the Chancellor. Membership of the Committee shall, insofar as possible, consist of individuals who have generated copyrighted or patented materials and should collectively represent a diversity of types of such materials (i.e., textbooks, biotechnology, software, etc.) The General Counsel of the Research Foundation shall serve as staff to the Committee.

3. Subcommittees. The Chair of the Intellectual Property Committee shall appoint from among the membership of the Intellectual Property Committee a Copyright Subcommittee responsible for the review of disclosures of Copyrightable Works, and a Patent and Technology Subcommittee responsible for the review of disclosures of Inventions, Trade

Secrets and Know-How, and Tangible Research Property. Each subcommittee shall, insofar as possible, consist of at least five members, a majority of whom shall have generated copyrighted materials, in the case of the Copyright Subcommittee, or patented materials, in the case of the Patent and Technology Subcommittee.

4. Term. Intellectual Property Committee Members are appointed for three-year terms with non-concurrent expiration dates and may serve successive terms.

F. Sponsored Research Requirements. The Research Foundation shall monitor disclosure and reporting requirements and other obligations to Sponsors regarding University-owned Intellectual Property developed under a Sponsored Research agreement or grant, including but not limited to obligations to the U.S. government under 37 C.F.R. Part 401, as amended (regulations implementing the Bayh-Dole Act).

G. Management Organization. The University may make an agreement with one or more intellectual property management organizations to undertake the legal protection and/or, with the permission of the Creator, commercialization activities, described in this Part V. Any such management organization shall be required to abide by the time limits set forth in Section V.D.

H. Not Applicable. This Part does not apply to University-owned Intellectual Property described in Sections III.B.2 and III.B.3, or in Section III.B.5 to the extent this Part conflicts with the terms of the negotiated agreement.

VI. Distribution of Income from Intellectual Property

A. Policy. A Creator of University-owned Intellectual Property is entitled to share in the income, including royalties, equity interests (subject to any University conflict of interest policy), and dividends, earned from the commercialization of that Intellectual Property.

B. Distribution. Subject to the terms of any Sponsored Research agreement and unless otherwise agreed by the University and the Creator, gross income created from commercialization of University-owned Intellectual Property shall be distributed as follows:

1. First, to pay for any out-of-pocket expenses incurred by the University or the Research Foundation in connection with the administration, protection and commercialization of such Intellectual Property, including, but not limited to, fees paid to outside legal, consulting, marketing and licensing organizations and any other out-of-pocket costs incurred by the University or the Research Foundation.

2. Then, 10 % applied to a fund at the University for payment of costs related to patent filing, prosecution and maintenance fees.

3. The resulting “Net Proceeds” shall be distributed as follows:
 - 50 % to the Creator;
 - 25 % to the University for the support of research and scholarly activity;
and
 - 25 % to the Creator's College(s), with 50 % of such amount going to the Creator’s academic or research unit(s) for the support of research and scholarly activity.

C. Multiple Creators. Where two or more Members of the University contributed to the creation of Intellectual Property, the Creator's share of revenues shall be divided among them equally, unless the Members of the University agree upon a different distribution among themselves and notify the University in writing of their agreement.

VII. Issues Relating to Ownership of Equity and Conflict of Interest

A. University’s Equity Interest. Subject to the review and approval of the Chancellor, and after a diligent effort to identify prospective sponsors or licensees, the University is permitted to take an equity interest in sponsors or licensee companies under the following terms and conditions:

1. Sponsors and licensees shall demonstrate management and technical capability, and have the financial resources necessary to meet their development objectives and their obligations to the University.
2. License agreements shall include measures of performance that must be met in order to maintain the license granted by the University.
3. Equity shall not be held in sufficient amount to confer management power, which generally would limit ownership to less than 20% of equity.
4. Equity shall represent a fair valuation for the Intellectual Property.
5. The University shall not accept a position on the board of directors of a licensee, but may accept and exercise observer rights on such boards. Exceptions to this policy require the approval of the Chancellor.
6. Licensees shall pay for out-of-pocket patenting and related expenses.

B. Member's Significant Interest.

1. Conflicts of interest may arise when a Member of the University has a Significant Interest in an entity:

a. to which the University has granted a license of Intellectual Property created by the Member;

b. with whom the University has entered into a Sponsored Research agreement;

c. which has contracted with the University for use of the Member's University office or laboratory or other University Resources; or

d. which employs or otherwise involves the Member's student advisees.

2. A Member of the University with a Significant Interest in a entity described in B.1, above:

a. shall disclose the Significant Interest to the University prior to the execution of any agreement between the entity and the University;

b. shall not represent the University in negotiating the agreement; and

c. shall not employ or otherwise involve such Member's student advisees at the entity unless they are paid at market rate.

3. A Member's Significant Interest in a licensee shall not prohibit the Member from receiving Creator's royalties pursuant to VI.B.3 of this policy.

4. Nothing in this Section shall lessen the obligation of a Member to comply with the requirements of state and federal law, the Research Foundation and any other University policy, regarding the disclosure of conflicts of interest.

C. Consulting Agreements. Conflicts involving Intellectual Property may arise when a Member of the University enters into a personal consulting or other agreement with a third party. Such agreements may include provisions as to the licensing or assignment of Intellectual Property and may come into conflict with this policy. Prior to signing any consulting or other agreement that deals with Intellectual Property owned by the University pursuant to this policy, a Member of the University shall have the agreement reviewed by the Chancellor to be certain such agreement does not inappropriately assign University rights to third parties. If the agreement is in conflict with this policy, the Member must either obtain from the Chancellor a waiver of any

University rights, or otherwise modify the consulting agreement to conform with this policy. This requirement is in addition to, and does not eliminate the necessity for, any approval required by any University conflict of interest policy.

VIII. Exceptions to and Waiver of Policy

A. Any Member of the University is entitled to request an exception or waiver to the provisions of this policy, including in the event that a publisher or other outside organization proposes terms which are exceptions to this policy.

B. A Member of the University wanting an exception or waiver shall, in the first instance, send a written request to the Chancellor, who shall circulate the request to the Member's College President, the University Dean for Research and the Executive Director of the Research Foundation. If these three individuals agree, the Chancellor shall notify the Member that the request is granted.

C. In the event that a request for exception or waiver is not granted pursuant to B, above, the Member of the University shall have the right to appear, accompanied by representatives of such individual's choice, before the Intellectual Property Committee for further consideration of the request. This hearing shall occur no later than 30 calendar days from the date of the request for such hearing. The Intellectual Property Committee shall prepare a report of its findings and submit an advisory recommendation to the Chancellor for review within 30 calendar days of the hearing. The decision of the Chancellor on the findings and recommendations of the Intellectual Property Committee shall be rendered within 30 calendar days and shall be final.

D. Parties to the process described in this Part VIII (including without limitation the University Dean for Research, the College President(s), the Executive Director of the Research Foundation, the Chancellor, and the members of the Intellectual Property Committee) shall maintain the confidentiality of any Intellectual Property contained in documents submitted as part of this process.

IX. Resolution of Disputes

This policy constitutes an understanding which is binding on the University and Members of the University for the use of University Resources and for participating in research programs at the University. Any questions of interpretation or claims arising out of or relating to this policy, or dispute as to ownership rights of Intellectual Property under this policy, shall be settled by the following procedure: The issue must first be submitted, in the form of a letter setting forth the grievance or issue to be resolved, to a review panel of five members, including a representative of the Creator, and designees of the Executive Vice Chancellor for Academic Affairs, the Executive Director of the Research Foundation, the Chair of the Faculty Advisory Council of the Research Foundation, and the Provost of the Creator's College. The panel shall review the

matter and then advise the parties of its decision within 30 calendar days of submission of the letter. The decision of the panel may be appealed by either side to the Chancellor. The decision of the Chancellor shall be final.

X. Trademarks

The University owns all right, title and interest in Trademarks related to an item of Intellectual Property owned by the University, or to a program of education, service, public relations, research or training program of the University.

XI. Role of the Research Foundation

The University hereby assigns its ownership rights in Inventions resulting from Sponsored Research to the Research Foundation. The Research Foundation may file patent applications, as named assignee, for such Inventions, subject to the terms of this policy, including the distribution provisions set forth in Section VI, with respect to income earned from the commercialization of such Inventions. Furthermore, nothing in this policy shall prevent the Chancellor from appointing the Research Foundation as the Chancellor's designee for performance of the functions assigned to the University in general or the Chancellor in particular, or to retain distribution of income from commercialization of Intellectual Property.

XII. Effective Date

This policy is effective from the date of approval by the University Board of Trustees with respect to Intellectual Property created after that date and shall remain in effect until modified or revoked.

XIII. Definitions

“**Chancellor**” shall mean the Chancellor of the University or his or her designee.

“**College**” shall mean a “senior college” or “community college” of the University or a component thereof, as such terms are defined in Section 6202 of the New York Education Law.

“**Commissioned Work**” shall mean work commissioned by the University in writing from a Member of the University, outside the scope of his or her employment.

“**Copyrightable Work**” shall mean an original work of authorship, including any Scholarly or Pedagogical Work, which has been fixed in any tangible medium of expression from which it can be perceived, reproduced, or otherwise communicated, either directly or with the aid of a machine or device, and may include, but is not limited to, books, journals, musical works, dramatic works, multimedia products, computer programs or codes, videos, films, sound recordings, pictorial and graphical works and sculpture.

“Creator” shall mean a Member of the University whose creative activity results in the development of Intellectual Property. As used in this policy, the term “Creator” also includes groups of researchers, authors or inventors whose joint efforts produce Intellectual Property.

“Designated Individual” shall mean the College officer who has been appointed by the College President to be in charge of Intellectual Property matters.

“Intellectual Property” shall mean all forms of intellectual property, including but not limited to Inventions, Copyrightable Works, Trade Secrets and Know-How, and Tangible Research Property, but excluding Trademarks.

“Invention” shall mean a process, method, machine, manufacture, discovery, device, plant, composition of matter or other invention that reasonably appears to qualify for protection under the United States patent law, whether or not actually patentable. **“Invention” shall also include computer programs and codes, but only to the extent they are patentable.**

The term **“Member of the University”** shall include full-time and part-time faculty, staff, and graduate students engaged in faculty-directed research, whether paid or unpaid, as well as individuals compensated by grant funds made available to the University by or through the Research Foundation. Any other person who develops Intellectual Property while making extraordinary use of University Resources shall also be deemed a Member of the University, unless there is an agreement providing that such person shall not be subject to this policy.

“OGC” shall mean the Office of the General Counsel and Vice Chancellor for Legal Affairs.

“Research Foundation” shall mean The Research Foundation of the City University of New York.

“Scholarly or Pedagogical Works” shall mean Copyrightable Works created for traditional academic purposes. Examples include scholarly books (including text books), instructional materials including lecture notes, classroom presentations, research articles, research monographs, student theses and dissertations, novels, poems, films, videos, musical compositions and performances, dramatic works and performances, visual works of art including paintings, drawings, sculpture, installations and performance art, and other scholarly publications or works of artistic imagination, whether such works are disseminated in print, electronically or through some other tangible medium.

“Significant Interest” shall mean the following:

(1) the position of director, officer, partner, employee, or agent, or other managerial position; or

(2) anything of monetary value, including but not limited to, salary or other payments for services (e.g., consulting fees or honoraria), equity interest (e.g., stock, stock options or other ownership interests), and Intellectual Property rights and royalties from such rights.

The term does not include: (1) income from seminars, lectures or teaching engagements sponsored by public or nonprofit entities; (2) income from service on advisory committees or review panels for public or nonprofit entities; (3) financial interests in business enterprises or entities that, when aggregated for the Member and the Member's spouse and dependent children, meet both of the following tests: (a) do not exceed \$10,000 per year in value, as determined through reference to public prices or other reasonable measures of fair market value and (b) do not represent more than a 5 % percent ownership interest in any single enterprise or entity; or (4), salary, royalties or other continuing payments that, when aggregated for the Member and the Member's spouse and dependent children, are not expected to exceed \$10,000 per year in value.

“Sponsor” shall mean an organization, agency or individual which or who provides funding, equipment, or other support for the University, directly or through the Research Foundation, to carry out a specified project in research, training, or public service pursuant to a written agreement (**“Sponsored Research”**). Sponsors include Federal, State, local and other governmental entities, as well as private industry, individuals, educational institutions and private foundations.

“Substantial Use of University Resources” shall mean unreimbursed use of University Resources at a level not ordinarily used by or available to, all or virtually all, faculty, staff or graduate students, as the case may be. Ordinarily available University Resources include assigned office, laboratory and studio space and standard office, laboratory and studio equipment, office computer workstations, library and other general use information resources and the means of network access to such resources. The University does not construe the payment of salary in the form of release time or sabbatical as constituting substantial use of University Resources, except in those situations where the release time or sabbatical is granted specifically to support the development of Commissioned Work. Use of ordinarily available University Resources for private, commercial purposes is considered substantial use.

“Tangible Research Property” shall mean tangible items produced in the course of research including, but not limited to, biological materials, research notes and reports, laboratory notebooks, computer databases and software, circuit chips, equipment and engineering drawings.

“Trade Secrets and Know-How” shall mean facts, information, data, designs, business plans, customer lists and other secret knowledge which give the owner a competitive edge.

“Trademark” shall mean a distinctive word, design or graphic symbol, or combination of the same, that distinguishes and identifies the goods and services of one party from those of another. The term “Trademark” shall include service marks.

“University” shall mean The City University of New York.

“University Resources” shall mean any resources available to a Member of the University as a direct result of his or her affiliation with the University and which would not otherwise be available to a non-University-affiliated individual, including but not limited to, funds and financial support, facilities, equipment, supplies, services, non-faculty University personnel, students, release time and sabbaticals.
