I. Purpose & Description

The City University Construction Fund (CUCF), on behalf of the City University of New York (CUNY), is seeking firms to provide architectural design services at CUNY’s various sites and facilities on an “as needed” basis in the following Categories of Work:

1. Architectural Design Services
2. Building Envelope Design Services
3. High Performance Design Services
4. Historic Preservation Design Services
5. Landscape Design Services
6. Signage and Interpretation Design Services

The scope of work & design assignments for each of these Categories of Work are more fully described in Appendix A.

A firm may apply to be considered for one, some or all of the Categories of Work.

For each Category of Work, those responsive and responsible firms that are determined by CUNY to meet the Minimum Qualification Requirement below and to best meet the Evaluation Criteria listed below will, as the need arises, be further considered for project specific task order assignments to be defined by CUNY at a later date. Firms selected through this solicitation will execute contracts with the City University Construction Fund on behalf of the City University of New York. A three (3) year contract term is anticipated, subject to all required internal and external oversight approvals and contingent on the availability of funds. It is further anticipated that each contract would have a not-to-exceed amount of up to $5 million for assigned task order services, depending on the particular Category (ies) of Work. A draft form of the contract will be issued in an Addendum to this RFQ.

Subsequent to contract execution, as the need arises in a particular Category or Categories of Work, CUNY will identify those firms eligible to compete for project specific task order assignments and send them a written description of the task order assignment and the criteria that will be used for selection. The firms will have an opportunity to submit a written response to the request, including a fee. The responses will be reviewed and evaluated by CUNY according to the criteria, after which the firm that best meets the criteria will be selected for the task order assignment at a fee determined by CUNY to be fair and reasonable.

Project assignments are anticipated to range up to $15 million in estimated construction cost, in whole or in part, depending on the particular Category of Work, and shall be performed in a timely manner for the rehabilitation, construction, renovation or expansion of CUNY sites.
