Exceptional education. Motivated students. Accomplished alumni. It’s the ideal combination for a distinctive graduate experience. It’s what you will find at every CUNY graduate program.

Most of CUNY’s full-time professors hold the highest degrees in their fields. What sets them apart, however, is their commitment to teaching. Our professors want you to learn. They believe you can achieve your goals, overcoming obstacles that stand in your way. Your path to knowledge starts now.

Our students are motivated to learn and grow. They take full advantage of their CUNY experience, achieving both personal and professional growth as they pursue their educational and career objectives.

Our faculty are leaders in their professional fields, and create powerful networks for graduate students to access.

Academics

Whatever path you pursue, CUNY offers the program and the people to propel your career further. Our graduate programs in arts, sciences, and business are recognized nationally and internationally. Our students benefit from a range of cultural, entertainment, business, and leisure opportunities in the nation’s greatest city.

Affordability

CUNY offers some of the best value in graduate education. Take advantage of our tech-heavy campus and public service model. Our graduate students borrow less for their education than their peers at other institutions, and our record of helping our graduates achieve fulfilling careers.

who reflect the diversity of the city and more than 100 health-related academic programs, CUNY brings a wealth of knowledge that helps people and live better. Here’s a look at four of our centers.

Feeding Behavior and Nutrition, Laser, Neural and Intelligent Systems, Semiconductor, Surface Science and Catalysis

Founded in 1987, the Applied Sciences Institute (ASI) at Brooklyn College comprises ten research institutes at the University of New York. In addition to the ASI, CUNY has other academic programs and research centers dedicated to promoting economic development through innovation and education. The ASI is one of the many efforts CUNY has taken to enhance the economic health of the city.

Gotham Center for New York City History

The Gotham Center is dedicated to studying the social, cultural, and political history of New York City, and to make it more accessible to citizens and researchers. Located in the heart of the city, the center seeks to promote understanding of the city’s past and present, and to encourage research and public engagement with New York City history. The center provides a range of educational programs, including seminars, workshops, and public lectures, to engage the public in the study of New York City.

The New York City Early Childhood

Professional Development Institute

This institute is dedicated to providing professional development opportunities for early childhood educators in New York City. It offers workshops, training sessions, and other resources to help early childhood educators improve their skills and knowledge. The institute is committed to fostering a strong early childhood workforce and promoting high-quality early childhood education in New York City.

The CUNY Urban Health Collaborative

The Collaborative is dedicated to enhancing public health research and practice in urban health by working with the University of New York. The Collaborative’s mission is to improve the health outcomes of New York City residents by addressing the unique challenges faced by urban populations. The Collaborative also aims to foster partnerships between academia, government, and community organizations to advance urban health research and practice.

The Gotham Center's mission is to examine and explore the city's rich history, and to make it more accessible to citizens and institutions. The Center is devoted to the preservation, interpretation, and dissemination of New York City's history. The Center's programs include exhibitions, lectures, publications, and educational opportunities. The Center is located in the historic Gracie Mansion in Manhattan.

The New York City Early Childhood Professional Development Institute

This doctoral program is designed for early childhood educators who wish to pursue advanced degrees in early childhood education. The program provides a comprehensive understanding of the field of early childhood education, with an emphasis on the development of young children. The program is offered on a part-time basis and includes a variety of coursework and field experiences.

The CUNY Urban Health Collaborative

The Collaborative was created to bridge training, research, and practice in urban health within the City University of New York. It is a network of academic, governmental, and non-profit organizations that work together to improve the health of urban populations. The Collaborative brings together researchers, practitioners, and policymakers to address the unique challenges of urban health care.
